

University of North Carolina Information Technology

November 3, 2011

John Leydon
Vice President
Information Resources
and CIO

Information Technology

Higher Education receives large discounts from hardware and software vendors not available to state and local governments.

Reason: Capture brand loyalty of a young target audience – **Students**.

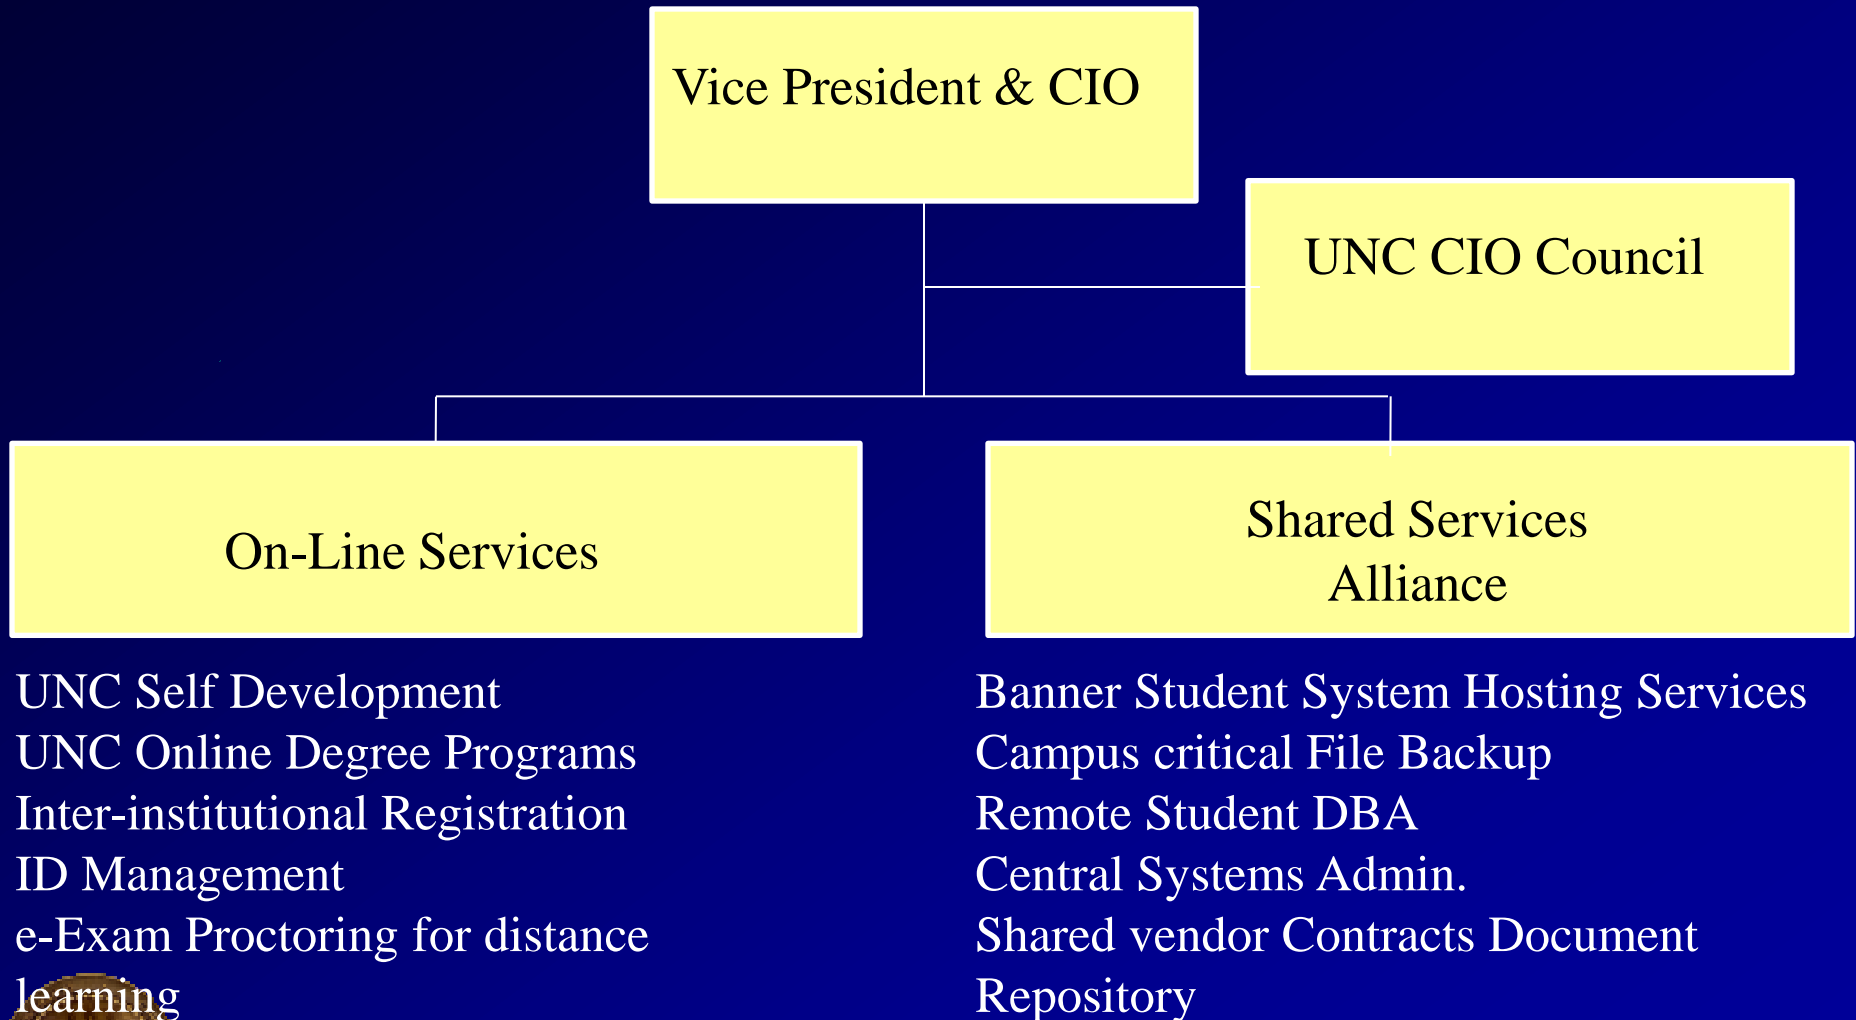

Strategies for Cost Saving

- Focus leveraging available discounts to higher education and pooling our institutions' purchase power.
- Collaborate with State ITS to jointly purchase and seek discounts where partnering offers additional savings.

UNC-GA Organization & Duties

University of North Carolina Governance and Oversight

Shared Services Alliance

- **Remote Student Database**
- **Administration**
- **Shared Systems
Administration**
- **Banner Student Hosting**

- **Student Financial Aid**
- **High Performance Computing**

University of North Carolina

The University of North Carolina continues to work towards finding efficiencies throughout the university. IT is just one example of where we strive to pool our resources to maintain the high quality of a UNC education and research.

- **UNC must remain:**
 - **Mobile** to keep pace with Students
 - **Agile** to continue to attract Faculty
 - **Cutting Edge** in fight for external Grants & Contracts
